## **Peace Participates in World Maths Day**

Queen of Peace High School's math classes joined nearly two million students from over 230 countries in "Uniting the World in Numbers" during World Maths Day on March 1. More than 400 students competed in real time to correctly answer 406,415 mental mathematics questions in quick-fire 60-second games.

Each participant in World Maths Day - a global event that designed to encourage school and student participation in an engaging online math event – received a certificate.

Congratulations to the following students who placed in the top 10 for Queen of Peace during the 48-hour event: junior Kelli Peyronet, senior Erin Kolasinski, sophomore Kathleen Miller, senior Dorothy Murzydlo, senior Athena Vo, junior Cynthia Ramirez, frosh Ryunhyo Park, senior Paris Clark, junior Marisa Wingham and Erin Yurko. Junior Kathy Gwozdz completed 570 games, the most of any Queen of Peace student.
